

North Stradbroke Island

🌊 Experience one of Queensland's most breathtaking natural wonders **and-based whale watching on North Stradbroke Island**, the closest whale-watching vantage point to Brisbane.

Thursday 5 November 26

Our journey begins as we travel from Toowoomba to **Cleveland**, where we board the ferry to the island. Known for its pristine beauty, North Stradbroke Island offers **crystal-clear beaches, dramatic headlands, rich cultural sites, and diverse wildlife**. From **late May to early November**, thousands of humpback whales migrate from the icy waters of Antarctica to the warmer, tropical waters of Australia and Fiji to breed and give birth. Watch these majestic giants of the sea as they travel along our coastline.

Stops Include:

🌿 **Myora Springs**

A sacred freshwater site for the Quandamooka people, Myora Springs has provided water for thousands of years. The surrounding forest teems with wildlife and lush natural beauty. 🌊 **North Gorge Walk – Point Lookout**

The highlight of the tour! Located at the north-western end of Point Lookout, the North Gorge Walk is the **best vantage point on the island** to view humpback whales, dolphins, turtles, manta rays, and other marine life passing right before your eyes.
